

WEDDING SERVICES

Your wedding has several phases: make-up application, photos, ceremony, and reception. Each phase puts you in front of the camera in different settings. Black & white or color film requires different depth in make-up color, as well as different make-up techniques. Weather conditions can also effect your skin, especially when you move from indoor to outdoors. Skin may become oily or very dry, depending on your skin condition. Oily or dry skin will reduce the elegance of the bride in photographs. Going from day into evening (reception time on) you will be surrounded by artificial lighting, which requires intensifying the make-up to avoid the "washed out" look, and creates an evening elegance. We offer a range of wedding services, both on location* and in our studio to suit every need and wedding size
